Drive safe! If you start calling asleep at the wheel, pull over and take an hour to nap!

Drive safe, fren.

▼

If you get sleepy pull off. Also if you feel a bit drowsy I know a trick. If no traffic is around you, turn your head 90 degrees against your shoulder. Suddenly none of your neural pathways do autopilot driving for you any more. It wakes me right up.

Hope you have clear weather for the drive! 95, at night (all night long) in the rain can really make your brain go crazy, lol.
